DETAILED ACTION

Allowable Subject Matter

1. Claims 29-47 and 53-54 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to the independent claims 29, 39, and 53, prior art fails to disclose or make obvious, in combination with other recited features of the claim limitations, a gas measuring device for identifying substances in flowing gas, based on ion mobility, wherein it has a cell structure comprising a flow channel for controlling a gas flow, a reference cell arranged to form a reference signal, a ionization section for achieving the ionization effect into the sample gas, and an analysis cell arranged to form an analysis signal so that the reference cell, the ionization section, and the analysis cell are located in said order in the direction of flow of the sample gas in the flow channel.

The unique aspect of the invention, which was not found in prior art but is disclosed in all the independent claims, is to have the analysis cell arranged to form an analysis signal so that the reference cell, the ionization section, and the analysis cell are located in said order in the direction of flow of the sample gas in the flow channel.

The dependent claims 30-38, 40-47, and 54, are allowable by virtue of their dependence upon the independent claims 29, 39, and 53, respectively.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kaufman et al. (7,045,776 B2) disclose an apparatus for the identification of chemical species by the measurement of the ion mobility as a function of high electric field and

for generating unique compound-dependent signatures based on ion mobility. Miller et al. (7,211,791 B2) disclose a method and apparatus for chromatographic high field asymmetric waveform ion mobility spectrometry including a gas chromatographic analyzer section intimately coupled with an ionization section.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
